I have been tied up above this field for weeks. Every day I see the farmer in the distance, tending to his fields but he never seems to notice me. I feel like I am invisible, like I am just a tiny strand of straw in a huge pile of hay. Even when the children walk past, or the birds swoop down from the sky, I am still alone. It is lucky that the straw can soak up my tears.

I feel so alone because even though I can scare the crows away, I don't really want to. They are the only things that come near to me. I actually miss them as they flap off into the distance, leaving me behind. I am ~~stuck~~ stuck here in the field, in the middle of nowhere all by myself. I hate it.

I wish I could just

Yes... me the lonely scarecrow who does not have any friends to talk to or to play with. I'm as lonely as this pole stuck up high. I've been stuck up here all my life and I'll stay here until the farmer pulls me down. I'm so lonely, I wish I could talk to someone.

I wish this greazing cold had could come off of his because there's nothing for me to do up here.

I feel so alone because every time someone passes they throw stones at me. If I wish to walk so badly I would rather be poor than this. What do I have to do all day?

I wish I could have had back school in the way who is just and not terrible or mean to me.

Be proud of yourself. This is a great improvement. Keep it up. Now! What a fantastic improvement!

3. A bedroom is 3.5m long and 2.4m wide and 2.1m high. Ignoring the door and window, what is the total area of the walls in the bedroom?

A tin of paint will cover 20m². How many tins are needed if the walls all need 2 coats of paint?

~~3.5 x 2.4~~
xW=A

(51) $3 \times 2 = 6m$
 $0.4 \times 0.5 = 2m$
 $6 + 2 = 8m$

$8 \times 2.1 = 16.8$

$$\begin{array}{r} 74 \\ \times 80 \\ \hline 08 \\ 168 \\ \hline 168 \end{array}$$

A = 16.8

(53) $16.8 \div 2 = 8.4m^2$

(51) $8.5 \times 2.4 = 20.4$

$$\begin{array}{r} 3.5 \\ \times 2.4 \\ \hline 140 \\ 700 \\ 700 \\ \hline 840 \end{array}$$

(52) $3.5 \times 2.1 = 7.35 \times 2 = 14.7$
 $2.4 \times 2.1 = 5.04 \times 2 = 10.08$

(54) $20m^2 \times 2 = 40m^2$

Walt: decide which operation is needed to solve a calculation in the context measures.

$3.5m \times 2.1m = 7.35$

$$\begin{array}{r} 35 \\ \times 21 \\ \hline 70 \\ 700 \\ \hline 735 \end{array}$$

$7.35 \times 2 = 14.7$

$2.4 \times 2.1 = 5.04$

$5.04 \times 2 = 10.08$

$$\begin{array}{r} 24 \\ \times 21 \\ \hline 480 \\ 480 \\ \hline 504 \end{array}$$

$$\begin{array}{r} 10.08 \\ + 14.70 \\ \hline 24.78 \end{array}$$

$10.08 + 14.7 = 24.78$

3 tins of paint needed 1 and bit to do 1 cover and 2 bit to 2 ds 2 covers

Walt - 10 Write a Setting description.

Before I took my first step, I hesitated. Should I go in? I stared down into the basement as the wind blew my hair, 'What's in there?' I thought.

I switched on my torch and took my first step. Creep! Creep! A few chunks of wood slipped as I raved down; my blood rose making me hot. I looked around, it was dark, dark, dark. Dark enough that someone could be hiding. It was obvious that something or someone was watching me and I was feeling uncomfortable.

In the corner of the room, there was a moth-bitten rug (possibly containing something), a box full of newspapers (ripped from years ago) and a scuttle, scuttle from an unknown creature. It scratched the old newspapers, knocking a jar full of tiny animal bones. I gasped in horror and that's when I saw it, the smallest bit of sun came through, beamed on a deadly blade waiting to fall. As I looked to my left I saw something it was a very, small, dusty door. All of a sudden, the door opened and I went down the stairs. I got dragged from the door.
